Dear Treasurer:

This letter is prompted by the Commission's further review of the report referenced above. This notice requests information essential to full public disclosure of your federal election campaign finances. **Failure to adequately respond by the response date noted above could result in an audit or enforcement action.** Additional information is needed for the following 2 item(s):

1. While it is permissible for a person to make a contribution for the general election prior to the primary election, the recipient committee must employ an acceptable accounting method to distinguish between primary and general election contributions. (11 CFR § 102.9(e)) This general election amount must be maintained in the committee's account.

Since the candidate is not seeking office and will not participate in the general election, any contribution received for the general election must be returned to the donors, in accordance with 11 CFR § 110.1(b)(3). The use of general election contributions to pay primary debts and obligations is prohibited under the Act as such use could result in individuals making contributions with respect to the primary election in excess of the \$2,600 per election limit. Any subsequent report(s) filed with the Commission must disclose the refund of any general election contributions. Refunds must be done within 60 days after the candidate's announcement not to seek office/re-election.

If you have not already done so, please inform the Commission of your corrective action immediately in writing and provide a photocopy of your check for any refund. Refunds are reported on Line 20(a), (b) or (c), as applicable, of the Detailed Summary Page and on a supporting Schedule B of the report
